

Udesign SV

Indoor Holographic
Transparent Screen

High Transpaency

≥92% transparency
Full screen LED lights
No dark display area,
better viewing experience

Ultra-thin & Slim

Weight is only 6kg/m²
Module thickness is only 2mm
Easy Instllation & maintenance

Integrated LED Design

LED lights + IC drive,
Breakpoint continuation
Worry-free operation
experience

Infinite Creativity

3D suspended images
Module can be bending & cut
Module support customization

Application Scenario

Product Parameter

Product Model	Udesign SV3.9	Udesign SV6.25
Pixel Pitch	3.9mm	6.25mm
LED Type	LED & IC integrated	
Size	250*1000mm/250*1200mm (Support customization)	
Weight	≤6 kg/m ²	
Transparency	92%	95%
Brightness	2500~4500 nits	4500~5000 nits
Refresh Rate	3840Hz	
Max Power	865W/m ²	
Average Power	350W/m ²	
Maintenance	Front maintenance	
Gray Scale	16bit	
Protection Grade	IP20	
Input Power	AC100V~220V	
Operation Environment	-20°C~+50°C/20~85%RH	
Storage Environment	-20°C~+60°C/10~85%RH
